Ohio Missions

September 2007

Email: rodshaull@yahoo.com

Ohio missions is alive and well. Attendance was down a bit as we averaged 50 for the month of September. We had many out sick and some surgeries this last month. Praise be to God we had a young man 28 years old accept Christ as His personal Savior and we are waiting for him to follow the Lord in baptism.

The people continue to learn more about being Christians and what God expects of them. It is a long road. When we started they knew nothing at all about the Lord, His church and His work. They have truly opened their hearts and minds to the Word of God.

We are also trying to get ready for winter. We have some things we would like to do before the snow comes. We need to cover the walkway to get into the church so our older members do not have trouble getting in and out of the building because of the snow and ice. We need a new mower as our old one blew the motor. We have about 9 acres to mow. So we desperately need a new one. We need to enlarge our parking lot and fill in some low spots. We need some more chairs and tables as we are about out.

We are so pleased to have visitors in our services. Many have come back and need to make moves for the Lord but God knows each heart. My mom could use some prayers. She turned 84 in September and has been sick for almost a month. She is feeling better now but please continue to pray for her and us in Ohio as we continue to put the finishing touches on this work.. When??? Only God knows the answer to that and He will let us know when. Thank you one and all for your support and prayers.

In His Service,

Rod Shaull
