

Rod Shaull

Ohio Missions

March 2009

Email: rodshaull@yahoo.com

One more day in March then April and hopefully warm weather. The weather back here has been really strange this year. We have had lightening, a tornado watch, and a couple of tornados that were on the ground that did some damage. Tornado's in Ohio in March are rare but it happened anyway.

Our people are starting to get well and our attendance has climbed up to around 50. We had several visitors during the month. We had our annual Friends and Family Day with about 80 people in attendance and we had a great time praising the Lord in song and worship. The Hester's out of Michigan came down and sang for us and a great time was had by all. We had about 20 visitors and most said they would be back.

Our people are growing by leaps and bounds. But it seems when the young Christians receive a blessing the devil is there to try and steal it. But they have learned that he has no power over our great God.

We still are waiting for God to open the doors to build. We will wait for Him as we see so many churches in trouble because of lost jobs, and some are even losing their buildings, so we will wait. He has blessed us with no debt and the people enjoy watching God at work supplying our needs.

I would ask you to please pray for my 38 year old son Rodney II as he had a heart attack the last of March and they had to put a stent in. There was damage they believe can be repaired with medication, rehab and proper eating.

Thank you so much for your prayers and support. Please consider helping us put our building up debt free. It can be done because God and His people are great and wonderful.

In His service,

Bro. Rod Shaull
